^a An earlier version of this list created by Harry Meinardi in 1999 used country symbols based on national automobile licence plate identifications. The abbreviations in the current table conform to the list given by the International Organization for Standardization.

^b Between 1909 and 1914, ILAE membership was conferred on individuals. Thus, the columns for 1909 and 1912 indicate the nationality of individual members and not national chapters. Even in later years, in several instances, documentary data are conflicting about the precise dates of acceptance of some national chapters. In such cases, the above table represents our best judgement but may sometimes be inaccurate.

^c From 1961 to 1973, Canada was part of the US chapter.

^d India was accepted provisionally in 1993, and confirmed in 1997.
